

The Specialised Information Service for Geosciences: Supporting Open Science in the Geosciences

Melanie Lorenz¹, Kirsten Elger¹, Inke Achterberg², Malte Semmler², Marcel Meistrig¹ & Norbert Pfurr²

1: Deutsches GeoForschungsZentrum GFZ, Telegrafenberg, 14473 Potsdam

2: Georg-August-Universität Göttingen Niedersächsische Staats- und Universitätsbibliothek Göttingen, Platz der Göttinger Sieben 1, 37070 Göttingen

The Specialised Information Service for Geosciences (FID GEO), funded by the German Research Foundation (DFG), supports the cultural change towards Open Science in the Geosciences. FID GEO actively offers data and text publication services via their associated repositories as well as digitisation on demand of print-only geoscience literature and maps.

If you would like to use our services or have any question related to Open Access publications, data or code publications, etc., please don't hesitate to contact us.

Publication of Research Data

Publication of research data via GFZ Data Services, the domain repository for the geosciences, hosted at GFZ.

- data curation by domain scientist
- long-tail data and global networks
- optional: project specific layout for DOI landing pages

*guiding principles for Findable, Accessible, Interoperable and Re-usable Data. Wilkinson et al., 2016 <https://doi.org/10.1038/sdata.2016.18>

Implementation of FAIR Principles* @ GFZ

- international metadata standards (human readable and machine actionable)
- controlled domain vocabularies (linked-data)
- integration of PIDs: DOI, ORCID, IGSN, ROR, ..
- open licenses for data and software
- metadata exchange via standard interface

Electronic Text-Publications

of pre- and postprints of scientific articles and monographs, institutional series and grey literature (e.g. excursion guides, conference proceedings)

- Text-Repository GEO-LEOe-docs
- Open Access
- DOI, ORCID
- Visibility in portals and library catalogs
- Long-term archiving

Current digital series on GEO-LEOe-docs

Zeitschrift für Geophysik

Berichte der Deutschen Gesellschaft für Moor- und Torfkunde

Greifswalder Geographische Arbeiten

Berliner Geowissenschaftliche Abhandlungen

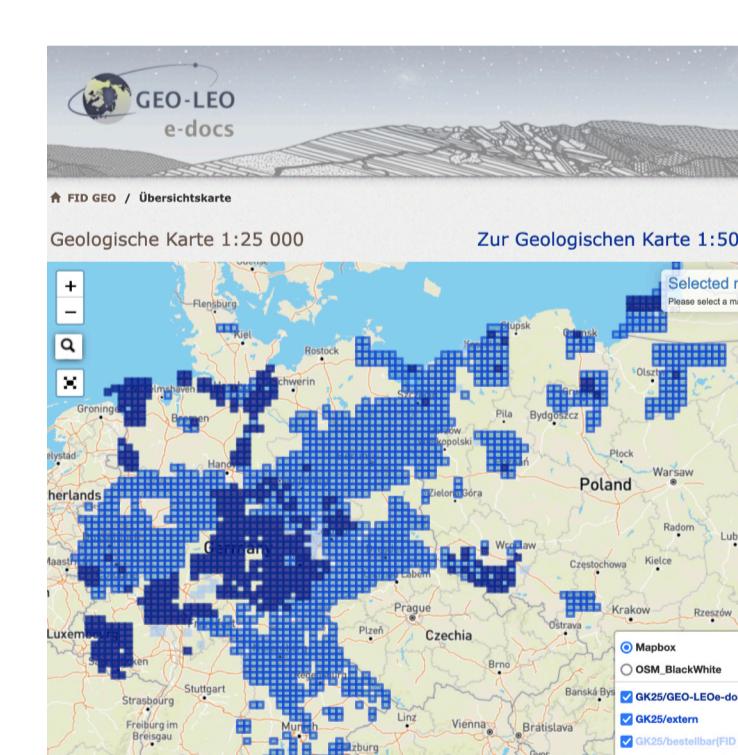

Retro-digitization

on-demand service for retro-digitization of out-of-copyright and out-of-print texts and geological maps and institutional series and 'grey literature'

- free of charge for researchers
- followed by Open Access publication on GEO-LEOe-docs including DOI

Geological Maps 1 : 25 000 / 1 : 50 000

Overview map:
<https://e-docs.geo-leo.de/map>

- ~3600 freely accessible maps
- on-demand digitization with FID GEO

FID GEO Cooperations:

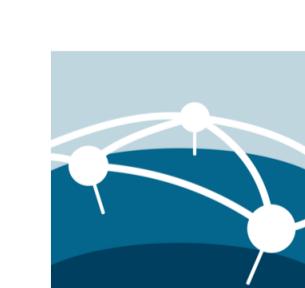

FID KARTEN

Fachinformationsdienst
Kartographie und Geobasisdaten

FID KARTEN (Cartography and Geodata)

FID MONTAN (Mining and Metallurgy)
